PILOT'S WATCHES

NR.4

IT'S TIME TO FLY.

Dear aircraft lovers,

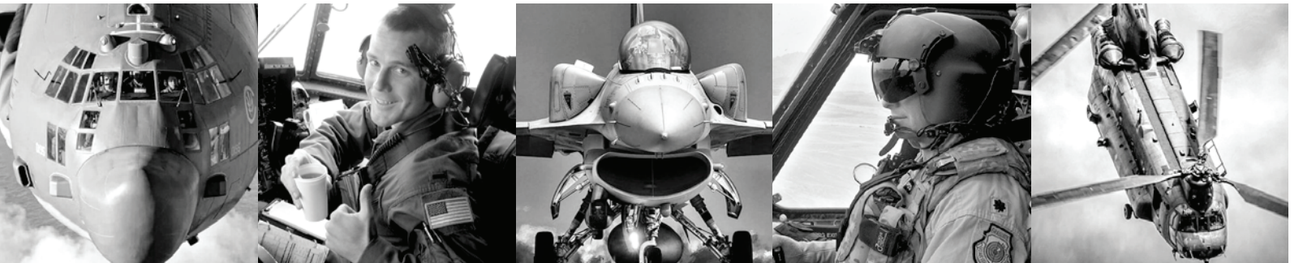
Like you, I am passionate about the unique appeal of aviation. Bitten by the breathtaking knowledge and courage of aviators throughout history, this results in the design of the RSC Pilot's Watches watch collection.

As designer and co-founder of RSC (Ronald Steffen Creations) I started my journey with a small limited watch collection based on the Sopwith Camel, the iconic WWI aircraft. Soon designs followed inspired by other legendary aircraft; like the Mustang or Spitfire but also modern fighter planes, helicopters and cargo planes. The RSC collection quickly became mature.

The popularity of an RSC watch is a combination of unique designs and our high quality standards. Ask the RSC collectors. By using high-quality stainless steel, scratch-free sapphire glass and Swiss timepieces, we guarantee a high-end watch without a doubt.

Every year new RSC models will be added with the result that new product development is a constant at RSC Pilot's Watches.
I thank you for making this (flight) trip with me.

Kind regards,
Ronald Steffen



RSC AIRFORCE WATCH PROJECTS

RSC PILOT'S WATCHES

MADE ON REQUEST OF AIR FORCE SQUADRONS WORLDWIDE

RSC

AIR FORCES WATCH SUPPLIER

Since 2014 RSC makes watches for pilots and air force personnel. Norway, Czech Republic, U.K., USA, France, Greece ... they are just a few countries where the orders come from. We are instructed to design unique watches to symbolize the unity of air force squadrons or to commemorate a special occasion.

RSC Pilot's Watches is one of the largest suppliers of watches for air forces worldwide. The watches are made to measure for the soldiers, with every requested detail.

Some air force watches are available for public sales. For more information contact us.
